

8 Steps to Configure Your Accurize Shooting System

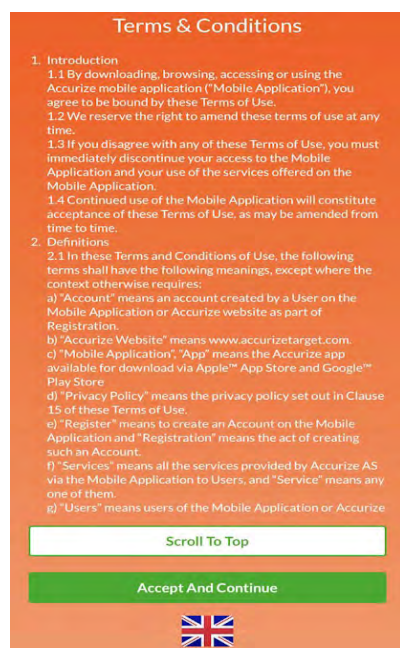

Step 1: Download the Accurize App.

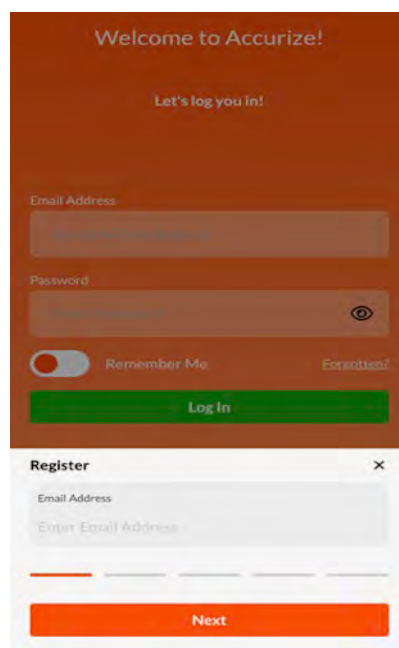

Note: For the system to work properly, the app requires an internet connection via Wi-Fi or mobile data.

Step 2: Open the App

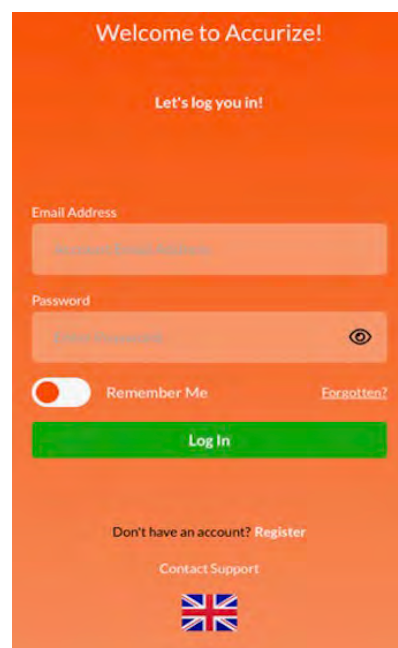

Accept the Terms and Conditions and tap the flag to change the language.

Step 3: Register as a new user

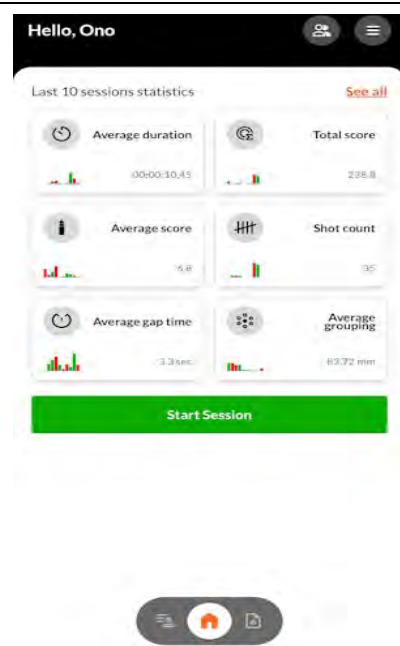

Click **Register** and fill out all the required fields.

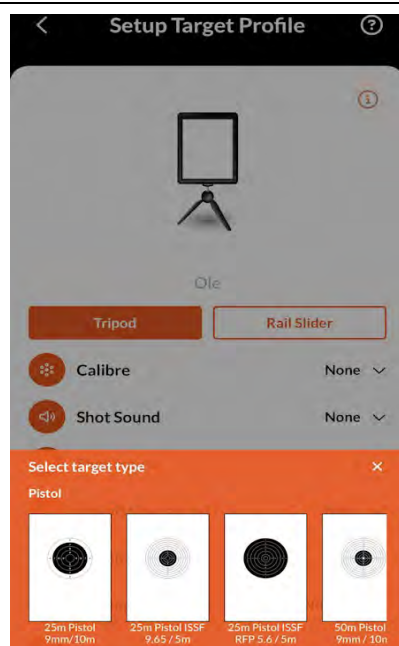

Step 4: Log in to the app

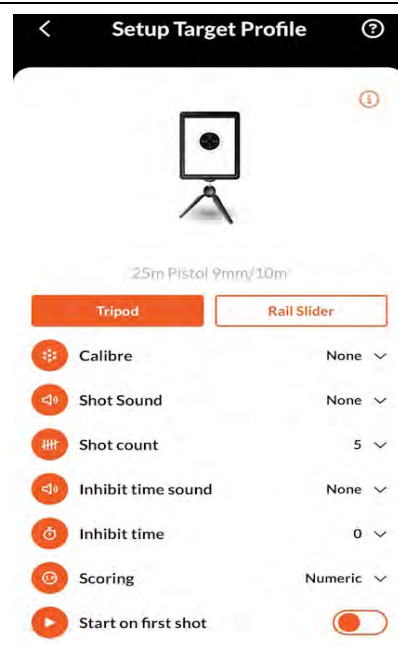

Step 5: Add your target in the app and follow these steps.

Tap the menu in the upper-right corner, select **Target Profiles**, and tap the + at the bottom.

Tap the white screen on the tripod and select your target at the bottom.

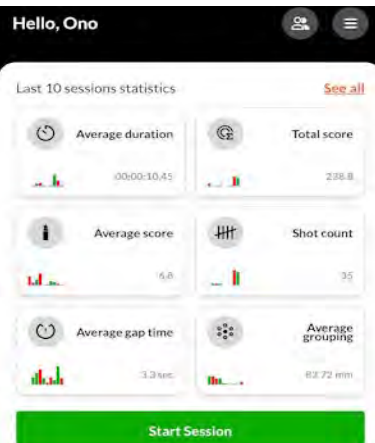

Adjust the target settings. **Inhibit time** blocks hits while reloading. Tap the top-left arrow to go back.

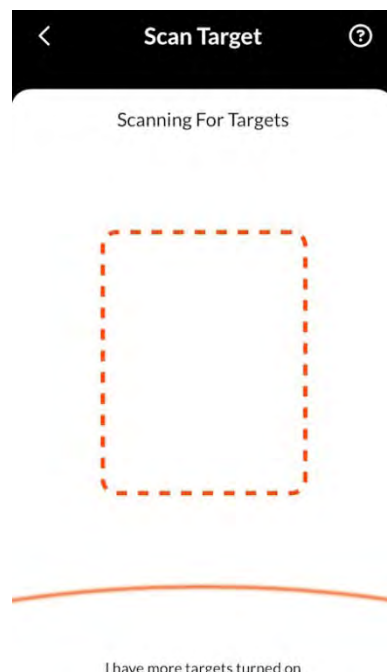

Step 6: Connect the Shooting System (target frame) to the app.

Press the button on the bottom right of the frame until the red light comes on.

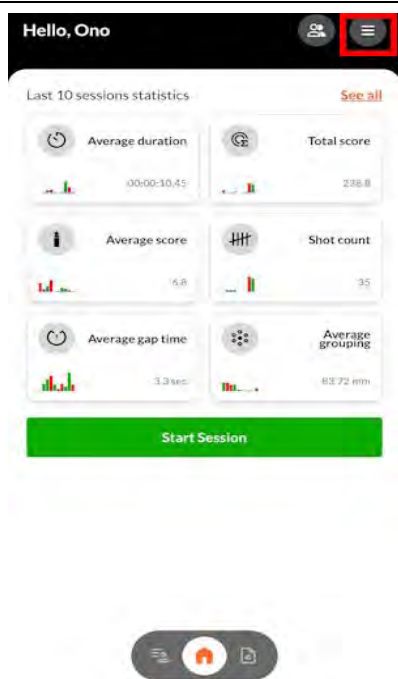

Tap the green **Start Session** bar or select **Connect Target** from the top-right menu.

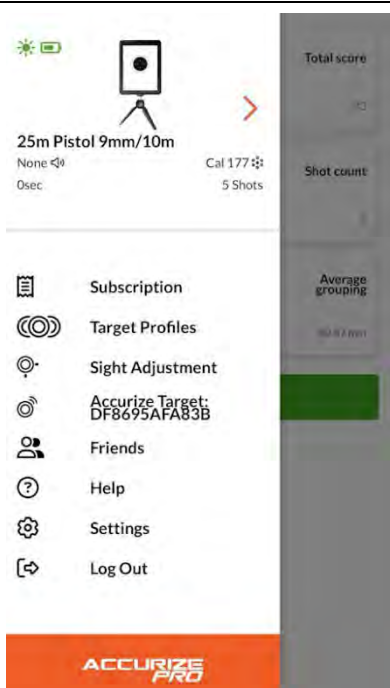

The app uses Bluetooth to scan for the frame and connects to it.

Step 7: Calibrate the sight / Sight Adjustment

Tap the menu in the upper-right corner (in the red box)

Check to make sure the correct target is displayed at the top and that the target profile is completely filled out.

Note: Once a session for a firearm has been recorded, the target type and session duration can no longer be changed.

Click on **Sight Adjustment**

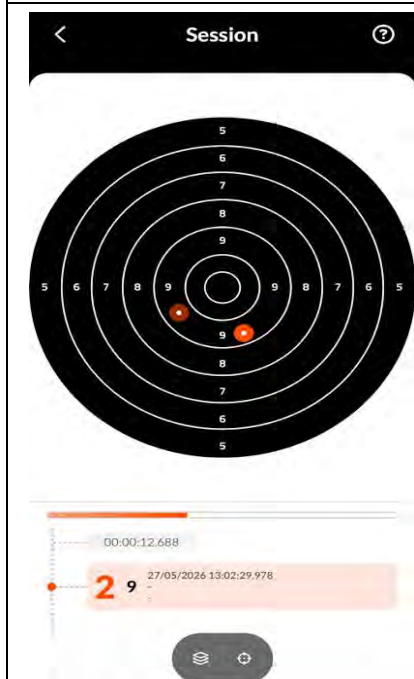

• **Basic app:** Take one shot as accurately as possible to calibrate the sight. Save the setting using the disk icon **(1)** on the grey bar.

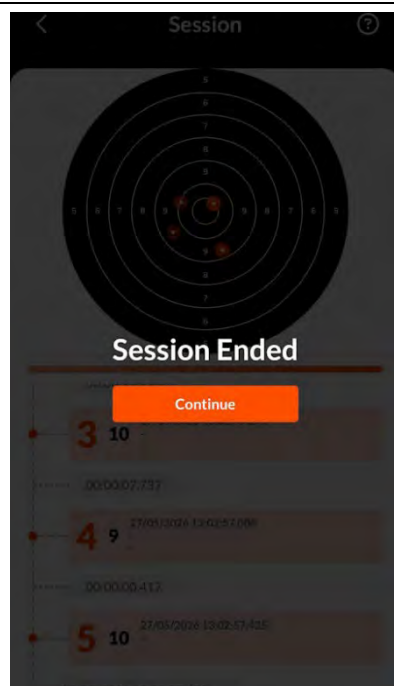

• **PRO app:** Take several shots and use the shot group for calibration. Tap the left icon **(2)** on the grey bar to set the group, then save using the disk icon **(1)**.

If needed, repeat the calibration after your first session or fine-tune it using the orange handles.

Step 8: Session Reports

Hits and scores appear instantly on the target during the session.

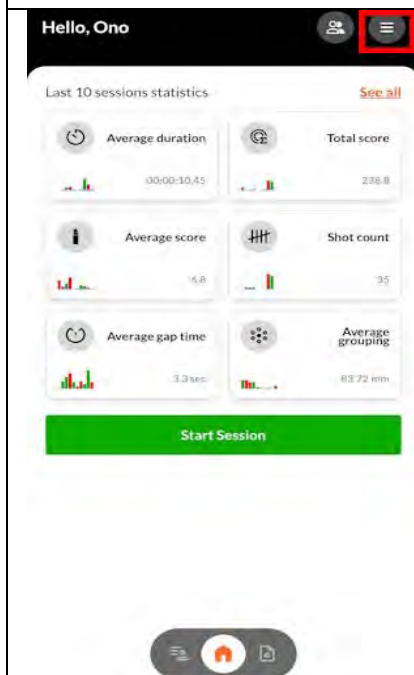

Session ended – tap **Continue** to view the session report.

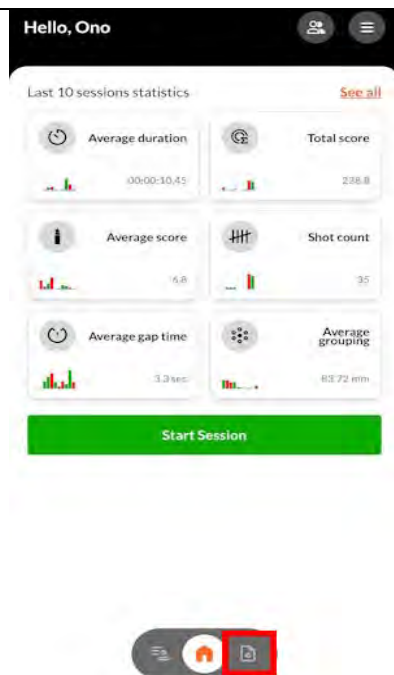

Use the grey bar to switch between views in the session report.

Additional Features and Menu

Tap the top-right menu to access more features, help and additional information.

Use the grey bar at the bottom of the page to go directly to the reports.
